

## **Annual Report 2008/2009**

**After a very busy year last year when we ran the vision and values project , this has been a quiet year with few major issues.**

### **Committee**

Our thanks to the committee for their work this year as they fitted the CRA into their very busy lives. During the year we welcomed a new committee member, Geoff Barnes.

(Put in portfolios)

### **Vision and Values**

We published a final document which recorded the findings of the project in January and distributed this as well as publishing it on the Vision and Values website.

We are using the findings from the Vision and Values exercise to inform everything we do. We had hoped to have a CRA website up and running by now, but this will have to be work for the new committee.

### **CCC submissions**

The Committee put in a submission expressing concern about the Council's social housing rental policy.

The Association put in significant effort into submission process on the CCCs LTCCP . The one positive outcome was the inclusion of funding for an upgrade to the Dyers Pass/Colombo St intersection and we await progress on this project with interest

### **Mid winter meeting**

This was held at the ... with a theme of community safety which was one of the priorities which came out of the vision and values exercise. It was extremely well attended for a mid winter event. The guest speakers were ???, Community Constable, ??? form neighbourhood support who provided information about setting up neighbourhood watch groups. We hear that a number of new groups have been formed in Cashmere since that meetings.

### **Newsletters**

We have published and distributed two newsletters as usual.
